Kutta Tactical Controller (KTAC)

KUTTA®
Technologies for Earth and Air®
A SUBSIDIARY OF **SNC**®

- Innovative handheld device that provides universal control for all types of uncrewed systems.

- Modular design based on Commercial-Off-The-Shelf (COTS) smartphone technology encased in a rugged enclosure that meets the demanding environmental challenges of expeditionary On-The-Move (OTM) operations.

- Supports multiple tactical configurations for tethered and untethered operations and is easily integrated into the Nett Warrior ecosystems.

- Provides end-user with a non-proprietary, flexible, product with lower procurement and sustainment costs than industry competitors.

Kutta Tactical Controller (KTAC)
